Subject:	Sinna, Dr. Hemalatha R; Dr Sajan S Yadav; Sh Sanjeeva Kumar; Teja Ram; Manohar Agnani { BPNI Staff } Action to Stop Exploitation of Covid-19 by the Baby food and Feeding bottle companies
Attachments:	Arun Gupta Covid Exploitation Webinar 19 Junepdf

Dear Dr Harshvardhan,

India enacted the "Infant Milk Substitutes, Feeding Bottles and Infant Foods (Regulation of Production, Supply & Distribution) Act 1992, and Amendment Act 2003" (IMS Act) which came into force in August 1993. An offence committed under the law is cognizable.

The Government of India notified "Breastfeeding Promotion Network of India (BPNI)"wide No G.S.R. 540 (E), dated the 27th June 1994, to monitor the compliance with the above Act.Today, BPNI organised a webinar on COVID- 19 and Breastfeeding attended by more than 450 persons from all over India, in collaboration with WHO, UNICEF, and experts from India and abroad. One of the topics was how the baby food industry is exploiting the Covid -19. Attached my presentation made today.

I want to draw your attention to the fact that baby food and feeding bottle companies are out there exploiting and capitalising on COVID-19 situation in India and aggressively marketing their products and blatantly violating the central law India enacted in 1992 and 2003. Several sections of the IMS Act are blatantly violated. Please spend 10 minutes looking at the examples in the PPT. Many companies are involved shamelessly pursuing their profits in the name of charity.

I am sure you are aware of the negative impact of such marketing on infants' and mothers' health. Do we know, How many babies and young children have died during Covid-19, because we didn't protect them against unethical and aggressive formula marketing? I guess we don't know.

Government of India and governments of the States are to enforce the central law enacted to protect the health of infants.

BPNI requests your utmost attention, to urgently to initiate concrete action to STOP this exploitation, by taking at least these 4 actions:

1. Set up a committee to have these violations examined and initiate action urgently.

2. Meanwhile, direct MOH GOI and States to immediately stop such activity of free donations and sponsorship of health workers and their associations in order to save babies during Covid-19 and later.

3. Write to all professional associations to remind them of their role in implementing the IMS Act and refuse sponsorships from baby food or feeding bottle companies.

4. Plan of action to follow up the babies who received such free donations of formula, and identify hospitals where formula is unnecessarily used.

We look forward to a positive response,

Sincerely,

Dr. Arun Gupta MD FIAP Central Coordinator, BPNI <u>https://www.bpni.org/</u> Exploitation of Covid-19 Pandemic by Baby Food or Feeding Companies

Dr. Arun Gupta, MD Breastfeeding Promotion network of India 19 June 2020.

Look What they are doing ?

Capitalising on Covid-19 and blatant violations of the IMS Act and "manipulation by association"

- 1. Free distribution of baby milk powders such as infant formula, foods for young children...
- 2. Spreading misinformation to public
- 3. Sponsoring doctors/associations even for adult nutrition
- 4. Feeding bottle company has also joined the bandwagon.

Credit goes to Vigilant friends all over India.

And....association with influencers

Lessons and recommendations

- Widespread exploitation of COVID-19 is evident.
- Attracts provisions of IMS Act and its Rules
- Partnership with health workers continues
- Conflicts of interest prevails
- Promotion of BMS especially sponsorship is aggressive and contributes to increased sales of BMS and thus their consumption. This is a Commercial Determinant of Health (CDoH).
- Civil Society vigilance helps to check it.
- Professional and associations should follow legal and ethical principles....OR stand the test of scrutiny !
- Governments should get serious in effective enforcement of IMS Act.

Know This.....so simple ! Thank you !!

Dear Health Authority Officials, Health Professionals, Academics & Scientists,

Know this:

All your legitimacy, credibility, and your professional reputation is gone, as soon as you take money from bottle/formula industry.

It's that simple. There is no debate.

Yours truly,

Dr. Magdalena Whoolery
